MEETING YOUR BUILDING COMFORT NEEDS

## HVAC BUILDING SYSTEMS

- Controls (DDC & Pneumatic)
- Heating & Cooling Plants
- Mechanical Equipment
- Air Distribution Systems

### *Comfortable, Efficient Environments*

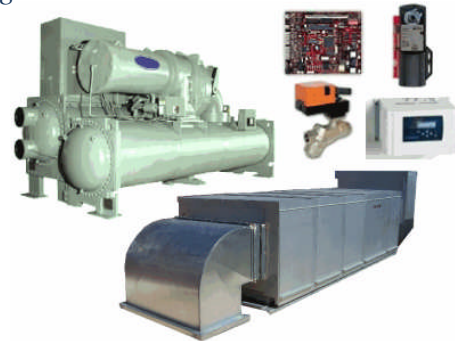

Energy efficiency in building control is not an after-thought at Energy Control Inc. (ECI), its common practice. ECI's core philosophy is based on the belief that all buildings can maintain a maximum environmental comfort level and still achieve cost savings and effectiveness. Bringing this concept to realization is what makes ECI a premier supplier of HVAC Control Systems.

### *Trained & Certified Technicians*

ECI maintains training and certifications on legacy system manufacturers and is able to provide turnkey services with the ability to troubleshoot through all building systems.

## KEY BUILDING SOLUTIONS

- Turnkey Systems Integration; *streamlining operations with Delta Controls BACnet®, Tridium Niagara™, & Echelon LonWorks™*
- Renewable Energy Design/Build; *lighting, temperature control, hot water and electric generation*
- Mechanical Equipment Audits; *useful life & replacement cost analysis*
- Detailed Energy Analysis; *energy use audits and cost analysis*
- Performance Contracting; *guaranteed savings created from reduced energy consumption and operating costs*

### *ECI focuses on Return on Investment*

In determining the feasibility of any project, ECI examines the Return on Investment (ROI). Equipment is chosen for each specific application to reduce energy consumption, maintenance, and repair costs.

## TECHNOLOGY SOLUTIONS

- Efficient mechanical systems
- Fully automated through the web
- LEED certified design/build services

## BENEFITS

- Reduced equipment failures
- Self-funded projects
- Stream-lined management & control
